

ALFRED DEAKIN HIGH SCHOOL
Care & Quality

12th February 2013

Dear Parents/Guardians,

This year at Alfred Deakin High School, students have been encouraged to 'bring their own devices'. In order to use their devices effectively, both in and outside of school, I have attached a list of apps for both Apple and Android devices to use in class.

As you will see, many do not require a cost. If you are able to locate another app which you feel more comfortable with, please let me know and I will add it to the list on our class' Edmodo page. I have included apps that are not solely English based but will be used in class.

Throughout the year students will have the opportunity to add to this list and to use these apps in class. However, as with any device, using it for text messaging or taking phone calls is not an effective use of class time.

From today students will be able to have their device with them in English. If your child does not have a device they will be given access to notebooks and the internet to complete tasks. If there is an issue with accessing a specific app, other arrangements will be made for your child to complete the work.

Regards,

Anissa Jones

English Teacher
